## Hugo & Mariana Morales— Mexico

### *Ethnos 360*

On February 23 we were able to spend our first night in the village! We are so grateful to be able to settle in one place, but we've had several problems with the water, and we had to change the pipes. Since we have always lived in furnished houses, we do not have our own furniture, so Hugo made the furniture that we need. Praise God he finished without any injuries or accidents!

We also thank God that our work team is complete. On February 28, Hugo's brother, Diego, and his family arrived. We were also able to finish Vincente's fence (another teammate) before the rainy season to prevent landslides towards his house. We are settling in our homes, but once settled we can begin the process of learning the Tselal language and culture. Another thing that we are planning as a team is literacy. We have seen the great need that people have to learn to read and write in Spanish.

In May we had the first medical brigade in the village. It was a great blessing and help in this stage prior to evangelization. The doctors who came gave free consultations and medicines. We had doctors, eye doctors and dentists, and we even had haircuts. More than 150 Tselal could be attended. It was good for them to see that our desire to help the village is genuine. Thanks to God!

We thank God for the opportunity we had to travel to Chihuahua for some conferences that the mission with which we work holds every two years. We were able to spend a few days with our friends from the Mission. It was very encouraging to see them and talk about all that the Lord is doing in different parts of our country. Each team was able to share struggles, achievements, difficulties and how the Lord is working in each one and in the people with whom the Gospel is being shared. We felt very blessed to see that God continues to use his children and that He is being glorified.

#### **Prayer Requests:**

- For unity in the team. And that God directs us in all the decisions that we have to make and that we have the same feeling. May we have good communication, patience, and love with each other. That we can reflect towards the people the love of God
- For the health of Mariana. She has been battling her allergies, especially her allergy to smoke. People here cook with firewood and there is smoke all the time, in the houses and in the environment. May God help us in this area, may her body get used to the smoke or may the Lord lead us and show us how to cope.
- For our marriage, may the Lord be glorified through our lives. May we be light and witness to others.
- May the Lord continue to provide for us as He has

**Kristi Ammon—** Kristi has the date for her double surgery- Wednesday, July 13. They will take out the one lymph node and the lower lobe- about 25%- of her lung. She tested very high on the pulmonary function test, but an echocardiogram was ordered. Waiting for a PET scan to be approved by insurance to see if there is evidence of effected lymph nodes. Please pray for favor with insurance.

**Sara Staeuble—** My sister made it through her all-day surgery and is recovering. The surgeons were able to accomplish what they had planned to do. Radiation and chemotherapy are on the agenda. We will know a lot more when biopsy results come in. Much to be thankful for but still much prayer needed. Thank you!

**Dick Hege—** Surgery went well. Pain is better but surgery site is sore. Please pray for complete restoration and recovery.
